PRODUCT LEAFLET

L5 WHITE: 930 - 1580 mm

002.2470-10 L5, WHITE 9010 93 - 158 cm, with universal bracket

Due to an increasing demand from the AV market to white projector brackets SmartMetals introduces the L1 series inwhite (RAL 9010). The SmartMetals ceiling mounts fit virtually any projector and are available in a range of standard lengths. All models, apart from the shortest, can be continuously adjusted in length and include a drop-down protection, ensuring that the inner and outer tube will not part. All universal tube sets include a ball joint that can be adjusted without tools. The universal bracket and your projector can be attached to the ball joint and can be positioned to any direction. The cable duct is easily accessible from the outside and the slotted holes in the ceiling plate make ceiling mounting straightforward. The projector brackets in the colour white will be available from stock in week 24

PRODUCT LEAFLET

L5 WHITE: 930 - 1580 mm
